

Detail of Farm School for the year 2015-16

Sr. no	Subject of Farm School	Technological Interventions	Impact	Place	Block
1	Tomato Cultivation	Integrated pest management , improved seed, nursery management	Knowledge about proper cultivation and disease management in tomato crop, better yield, healthy plants	Satlai	Mashobra
2	Pea cultivation	Integrated pest management, improved seed	Knowledge about proper cultivation and disease management in pea crop, better yield	Dafoug	Mashobra
3	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Dhagogi	Mashobra
4	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Neen	Basantpur
5	Pea cultivation	Integrated pest management, improved seed	Knowledge about proper cultivation and disease management in pea crop, better yield	Himri	Basantpur
6	Capsicum cultivation	Preparation of nursery beds, nursery sowing, transplantation techniques, use of hybrid seed	Knowledge gained regarding improved agro techniques for nursery raising, transplanting, healthy plants, improved production and quality	Karyali	Basantpur
7	Pea cultivation	Integrated pest management, improved seed	Knowledge about proper cultivation and disease management in pea crop, better yield	Kanuri	Theog
8	Pea cultivation	Integrated pest management, improved seed	Knowledge about proper cultivation and disease management in pea crop , better yield	Bharyana	Theog
9	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Jathai	Theog
10	Orchard management of apple crop	Integrated nutrient management, use of Boron	Yield and quality of fruits enhanced, Knowledge about deficiency of boron and its control	Bhutti	Narkanda
11	Pea cultivation	Integrated pest management, improved seed	Knowledge about proper cultivation and disease management in pea crop, good yield	Kotighat	Narkanda
12	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Mateog	Narkanda
13	Pea cultivation	Integrated pest management, improved seed	Knowledge about proper cultivation and disease management in pea crop, good production	Chandi branda	Rampur
14	Pea cultivation	Integrated pest management, improved seed, line sowing	Knowledge about proper cultivation and disease management in pea crop, good production	Ravi Srahan	Rampur
15	Post-harvest management of apple plants	Use of bordeaux paste in apple plants, training, pruning	Knowledge regarding use of bordeaux paste on plant cuts, proper care of plant, improved plant health and production	Lalsa	Rampur

16	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Juni (jahoo)	Nankhari
17	Pea cultivation	Improved seed and IPM Kits, line sowing	Increased production and proper use of IPM techniques, improved yield	Nanaseri	Nankhari
18	Orchard management of apple crop	Practices regarding proper management and use of IPM kits	Knowledge regarding use of IPM kits for control of pest, improved production	Punan	Nankhari
19	Pea cultivation	Improved seed, latest agro techniques	Gained knowledge about latest agro techniques for crop management, better yield	Ghasigaon	Jubbal
20	Orchard management	Integrated pest management practices, use of Bavistin & Dithane M- 45 for premature leaf fall	Farmers learned about management of premature leaf fall	Sundali	Jubbal
21	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Shrithi	Jubbal
22	Pea cultivation	Improved seeds, latest agro techniques	Knowledge regarding latest agro techniques, improved yield	Seema	Rohru
23	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Gawana/ Kutara	Rohru
24	Management of apple orchard	Training & Pruning of plant, use of paste of blitox + linseed oil on cuts	Proper practices for winter care of apple orchard, healthy plants and improvement in production	Tillri	Rohru
25	Pea cultivation	Integrated pest management, improved seed	Knowledge about proper cultivation and disease management in pea crop, yield improvement	Jagoti	Chirgaon
26	Potato cultivation	Improved seed potato, complex fertilizer 12:32:16, Judicious use of fertilizer	Increased production, Improvement in group income, knowledge regarding judicious use of fertilizers	Dali	Chirgaon
27	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Limbra	Chirgaon
28	Garlic cultivation	Time and method of fertilizer application and harvesting of Garlic crops, improved variety of seed garlic	Knowledge about judicious use of fertilizer and proper stage of harvesting for marketing purpose	Sainj	Chopal
29	Orchard management	Practices regarding proper management and use of IPM kits	Knowledge about orchard management and disease management in apple crops, use of IPM kits, Plant health improved	Pujarali	Chopal
30	Balanced feeding of cattle including micronutrient	Provided calcium supplements and mineral mixture	Knowledge about animal health management, Improvement in animal health , milk production and its quality	Tharoch	Chopal
