

Detail of Farm School for the year 2016-2017

Sr. no	Subject of Farm School	Technological Interventions	Impact	Place	Block
1	Ginger cultivation	Integrated crop management with particular emphasis on management of rhizome rot disease, seed ginger treatment	Knowledge about proper disease management in ginger crop	Jabri	Mashobra
2	Pea cultivation	Integrated disease management, improved seed	Improved cultivation practices and disease management in pea crop, better yield	Kanda	Mashobra
3	Bean cultivation	Improved variety seed, integrated crop management	Knowledge about latest agro techniques, importance of improved seed, increase yield	Navi	Basantpur
4	Bean cultivation	Improved variety seed, integrated crop management	Knowledge about latest agro techniques, importance of improved seed, increase yield	Hazal	Basantpur
5	Bean cultivation	Improved variety seed, integrated crop management	Knowledge about latest agro techniques, importance of improved seed, increase yield	Lafu Ghati	Theog
6	Bean cultivation	Improved variety seed, integrated crop management	Knowledge about latest agro techniques, importance of improved seed, increase yield	Bajowa	Theog
7	Balanced feeding of cattle	Provided calcium supplement and mineral mixture to improve cattle health	Improvement in animal health, milk production & its quality	Kumarsain	Narkanda
8	Pea cultivation	Integrated disease management, improved seed	Improved cultivation practices and disease management in pea crop, better yield	Badagaon	Narkanda
9	Balanced feeding of cattle	Provided calcium supplement and mineral mixture to improve cattle health	Improvement in animal health, milk production & its quality	Dhar gaura	Rampur
10	Mash cultivation	Integrated crop management , line sowing, improved mash seed	Gained knowledge of latest agro techniques , better yield	Shah	Rampur
11	Orchard management	Training & pruning, intercultural operations in plant basins, IPM kits	Plant health improved and fruit production and quality increased, knowledge regarding usefulness of IPM kits	Addu	Nankhari
12	Orchard management	Training & pruning, intercultural operations in plant basins, IPM kits	Plant health improved and fruit production and quality increased, knowledge regarding	Barog	Nankhari

			usefulness of IPM kits		
13	Tomato Cultivation	F1 Hybrid seed, integrated crop management	Increased production, knowledge about INM & IPM	Sari	Jubbal
14	Cauliflower cultivation	Integrated nutrient management , IPM, F1 hybrid seed	Increased production, knowledge about INM & IPM	Moral	Jubbal
15	Balanced feeding of cattle	Provided calcium supplement and mineral mixture to improve cattle health, deworming medicines	Improvement in animal health, milk production & its quality	Bhallon	Rohru
16	Cultivation of French Bean	Integrated crop management, use of quality seed	Adoption of improved agro techniques increased yield	Sharog	Rohru
17	Pea Cultivation	Use of improved pea seed, use of 12:32:16 & urea, INM & IPM	Increased production, knowledge about INM & IPM	Sunda	Chirgaon
18	Orchard management in apple	Use of mulching sheets	Weed control and soil moisture conservation, improved plant health	Sandasu	Chiragaon
19	Balanced feeding of cattle	Provided calcium supplement and mineral mixture to improve cattle health	Improvement in animal health, milk production & its quality	Sarin	Chopal
20	Balanced feeding of cattle	Provided calcium supplement and mineral mixture to improve cattle health	Improvement in animal health, milk production & its quality	Chaukiya	Chopal
